Each year each school district is confronted with the task of achieving numerous educational objectives within available financial resources. The accomplishment of this task is more probable if the district prepares a documented plan of action outlining the financial resources to be utilized to achieve specific objectives. The process of developing a budget has other managerial advantages:

- Costs relative to benefit of programs and activities are periodically reevaluated for present and future educational advantages.
- Internal operations are systematically reexamined for efficiency and economy so that improvements might be made.
- Data concerning specific areas of responsibility are made readily available for evaluative purposes.

The Uniform Budgeting and Accounting Act, Act 621 of Public Acts of 1978, mandates the formulation and establishment of a uniform chart of accounts and reports for school districts. The purpose of the Act is to provide the structure necessary for a close relationship between the administration and the local school board with regard to the establishment of budgets and appropriations. The (School District's) General Fund Budget has in the past and continues to meet these guidelines. The budget and other financial reports have contained comparative figures and year-end financial information.

The 2016-2017 General Fund Budget is presented as one page. Supplementary data, (line items), are provided as required by the Uniform Budgeting and Accounting Act. Additional material is provided as a resource and to assist in analyzing budget material.

The 2016-2017 budget represents a financial outline for providing the best possible educational plan for students with available funds. It has been developed after discussion with Board Members, administrators, teachers and other interested persons in the Grand Ledge Public Schools. Goals which were adopted by the Board of Education serve as the basis for budget development and it represents in monetary terms thousands of hours of student instruction, transportation, custodial services, building maintenance and things which together combine to make a successful school program.

The budget must make assumptions in certain areas, including, but not limited to, enrollment, state aid assistance and Taxable Values on non-homestead property. It will be brought to the Board of Education for revision on a timely basis as is required by State and Board guidelines.
